Actions to take to winterize your home.

Avoid being caught out in the cold because of a home emergency this winter with this handy home winterization checklist created by the Experts at Frontdoor.

Outdoor Maintenance

- Insulate any exterior exposed pipes
- Drain and disconnect all exterior water sources
- Clean the gutters
- Check the roof and chimney
- Remove low hanging branches or trees near home
- Cover any outdoor furniture and appliances

Indoor Maintenance

- Test thermostat, heating system and generators
- Reverse ceiling fans to rotate clockwise
- Properly insulate your attic
- Weatherproof doors and windows
- Test smoke and carbon monoxide detectors
- Prepare a home emergency kit

Don't forget to prep your home emergency kit!

Bottled Water and Shelf-Stable Food Items
(Don't forget a manual can opener!)
